鍾健平 (Chien-peng CHUNG)

香港嶺南大學政治學系教授

漢學研究中心獎助訪問學人

東亞各國的人民正體驗著急速且令人迷惑的變動，這個地區存在太多不穩定的變數。美國總統川普的對中貿易戰真的只以貿易為目的嗎？美中過往角力的歷史背景為何，美國如何看待「一帶一路」政策？中國推動此政策，有什麼主要的政治戰略考量？東北亞和東南亞各國政府何以對一帶一路反應不一，他們各次的盤算是什麼？華人在促進中國的東南亞投資及外交上，扮演什麼角色？一帶一路、美中關係和領海主權紛爭的相關程度多高？東北亞國家會怎樣利用美中角力的機會？

我的演講將以英文為主，普通話為輔，期望能解釋前段所述所有疑問，以更有效的應對目前日益急迫的國際問題。

### **East Asia in the Context of US-China Rivalry, One-Belt-One-Road, and Maritime Disputes**

People living in East Asia are experiencing rapid and even disorientating changes, with many uncertainties regarding the state of affairs surrounding the region. Is United States President Donald Trump's trade war on China about trade or something more? What is the historical background of the US-China rivalry, and how does the US see China's One-Belt-One-Road / Maritime Silk Road Initiative? What are the major political-strategic considerations for China in promoting the MSRI? Why are there differences in the reactions of the governments of Southeast and Northeast Asia toward the initiative and what are their cost-benefit calculations based on? What are the roles of ethnic Chinese in facilitating China's investments and diplomacy in Southeast Asia? To what extent do maritime territorial sovereignty disputes figure in the MSRI and US-China relations? How are Northeast Asian

countries taking advantage of the US-China rivalry?

This presentation, to be conducted in English supplemented by Mandarin Chinese, hopes that by posing and attempting to answer the questions above, we can get a better handle on the pressing international issues facing us today.
